RELEVANT COURSEWORK

- Open Server I, II
- Server I, II
- Network Administration I, II
- Web Systems and Services I, II, III
- IT Security I, II
- Computer Forensics I

DESIGN PROJECT

Tutelage

Philadelphia, PA

Front/Backend Developer

January 2023 – June 2023

- Collaboratively spearheaded the design and development of an online tutor finder website specifically tailored for Drexel students with two classmates
- Successfully programmed in HTML, PHP, and CSS, effectively utilizing SQL databases, and executing queries, resulting in the development of efficient and user-friendly web applications
- Worked with a cross-functional team to implement projects using the Agile development methodology

EXPERIENCE

Crown Cork and Seal

Yardley, PA

Global Information Security Analyst Intern

September 2024 – March 2025

- Monitored and triaged security alerts, performing initial investigations and escalating incidents as needed
- Assisted in improving incident response workflows by providing feedback from alert triage experiences
- Supported in handling incidents with global impact, ensuring effective information sharing with international counterparts

LAN/WAN Information Systems Intern

- Provided timely PC and Network support, collaborating cross-functionally to efficiently resolve tickets and maintain reliability
- Unpacked, configured, and shipped 11 Cisco 2960X(R) switches for plant network deployment
- Collaborated with the local cybersecurity team, escalating alerts and leaning on their expertise as needed

SGS & CO

New York City, NY

Data Center Relocation Support

May 2023

- Assisted in the decommissioning and relocation of a data center
- Played a role in uncracking and safely organizing servers, network devices, UPS systems and other critical infrastructure
- Labeled and organized equipment, prioritizing critical devices for immediate unpacking and rapid deployment at the new data center location
